Opis produktu

Courier bags made of the highest quality biodegradable film with a thickness of 60 microns.

Packages subject to composting are manufactured in accordance with the European Standard EN 13432: 2000, in accordance with the decision of the European Commission 2001/524 / EC3, where it was considered as a harmonized Directive 94/62 / EC.

Shelf life up to 12 months from the date of manufacture on the packaging when the appropriate storage conditions are met:

- bio-compostable bags are stored in the original packaging at a temperature of -10 ° C to + 30 ° C and relative humidity up to 80%
- bio-compostable bags are not exposed to sunlight

The biocompostable material undergoes aging, changes in mechanical properties may occur over time
