### Opis produktu

Our courier envelopes (specialy for e-commerce) are made of the highest quality multi-layer film with a thickness of 50my LDPE (with increased resistance to puncture and tear). This product is addressed to companies engaged in logistics, freight forwarding and mail-order sale. Our products provide excellent protection from mechanical damage and moisture. Furthermore, our envelopes are completely opaque and therefore no one can see the contents of the envelope. An additional guarantee of the safety of products packaged in our "products a strip of adhesive applied to the hot prevent the opening of the envelopes without simultaneous damage.

Every consignment of VAT invoices.

Made in Poland.
